

AMERICAN RED CROSS WILDERNESS AND REMOTE FIRST AID

Course Dates:

September 25, 2010 - Saturday 8:30 AM - 5:00 PM

September 26, 2010 - Sunday 8:30 AM - 5:00 PM

Course Description:

The new 2010 American Red Cross Wilderness and Remote First Aid course is intended to serve as an educational resource for those involved in activities that take them beyond the scope of traditional urban emergency medical services. In these cases, EMS response and evacuation can often be delayed. This course provides individuals with the knowledge and skills necessary to deal with these emergencies until more advanced care can be provided. It complies with federal OSHA regulatory requirements for employee training. The majority of training will be in an outdoor environment. C.E.U's are available.

Course Objectives:

- Learn how to respond in delayed emergency situations.
- Identify causes and prevention of injuries.
- Learn proper advanced preparation for journeys into backcountry areas.
- Basic and Advanced First Aid techniques.
- Learn Emergency Action Plans for delayed response.
- Perform simulated rescues that test knowledge and skill in backcountry areas.

Prerequisite: Age 14 or above. Participant(s) must be able to short distance hike to remote sites and simulate rescues.

Proof of an Adult CPR/AED certificate/card from American Red Cross or recognized training agency. This is a new 2010 mandatory pre-requisite.
