

Registration Instructions for Winter Camp 2022

This years Winter Camp classes are offered in a different format than previous years. Scouts will spend the entire week working on merit badge requirements and participating in activities related to their choice of one of eight adventure areas. The focus is on the overall experience.

These instructions will assist with the registration process.

1. Sign in to your Tentaroo account.
2. Select Winter Camp from the list of upcoming events.
3. Select "Create Registration."
4. Ensure that the T-shirt sizes and the ranks of the person(s) to be registered are correct.
5. After you add the name to be registered, you will have a choice of Adventures to choose from. Pick any merit badge or activity associated with your choice of adventures.
When you select any activity or merit badge associated with your choice of adventure, you will automatically be registered in all the merit badges classes and activities associated with that adventure. The scout may or may not complete the merit badges in that adventure, but will work on requirements toward all of the badges listed.
6. Some adventures have additional fees (see [Adventure Descriptions](#)). You may only select one adventure for Winter Camp.
7. After selecting your Adventure, complete your registration with payment at your Tentaroo shopping cart.
